

F.E.V. srl è un'azienda specializzata nella produzione di rubinetteria per bagno e cucina.

Fondata nel 1961, si è da sempre contraddistinta, in Italia e all'estero, per i suoi prodotti curati nelle finiture e nei dettagli.

La continua ricerca di nuove soluzioni, la particolare cura degli aspetti tecnici realizzativi, l'attenzione costante alle tendenze contemporanee senza mai dimenticare gli insegnamenti della tradizione, hanno consentito alla vasta gamma dei suoi prodotti di adattarsi alle più diverse richieste ed esigenze, mantenendo livelli di eccezionale competitività senza mai venire meno all'elevata qualità che da sempre li ha contraddistinti.

L'esperienza, la professionalità, la puntualità e l'assistenza costante nei confronti dei propri clienti, fanno di F.E.V. un'azienda flessibile e un partner affidabile.

F.E.V. srl is a leading manufacturer of kitchen and bathroom faucets. Founded in 1961, FEV is acknowledged for our innovative products of fine making both nationally and worldwide.

Our relentless search for new solutions, special care to the technical and manufacturing aspects, keen attention to contemporary trends, as well as deep respect for tradition, allow FEV wide range of products to meet all sorts of requirements at uniquely competitive levels, and to stand out for our top quality features at the same time.

Experienced, professional, punctual and customer oriented, these are the qualities that make FEV an adaptable company and your reliable partner.

TECNOLOGIA - TECHNOLOGY

I rubinetti rappresentano un aspetto significativo dei consumi domestici, incidendo in modo rilevante sul bilancio energetico e idrico delle nostre abitazioni. In questo contesto, la nostra azienda ha adottato una filosofia di ricerca e innovazione, mirando a fornire soluzioni che consentano di correggere abitudini comuni e di limitare sprechi insostenibili.

Il nostro impegno si traduce in un sistema studiato attentamente: l'apertura dell'erogazione avviene tramite una leva posizionata centralmente, direttamente in acqua fredda, prescindendo dalla miscelazione con l'acqua calda. Questa scelta, oltre a garantire il massimo comfort, impedisce l'attivazione del sistema di riscaldamento, riducendo così significativamente il consumo energetico. Tale approccio riflette la nostra determinazione a promuovere pratiche sostenibili e responsabili, in linea con le più recenti direttive in materia di risparmio energetico.

Inoltre, per soddisfare particolari esigenze dei clienti o per rispettare le varie normative locali, i nostri miscelatori possono essere dotati di diversi modelli di limitatore di flusso che garantiscono la portata massima al minuto richiesta.

La nostra missione è promuovere un approccio consapevole all'uso delle risorse, garantendo al contempo la massima efficienza e comfort. Siamo fieri di offrire soluzioni che incarnano la nostra visione di un mondo più sostenibile ed efficiente.

The use of taps significantly affects household bills, heavily weighing on energy and water domestic consumption. For this reason our company has embraced a research and innovation oriented approach aimed at supplying efficient solutions, which can rectify everyday unsustainable habits and wastage.

Our commitment results in a new solution we engineered to supply water directly by means of a central lever on cold, thus bypassing any mixing with hot water. This choice, besides being user friendly, blocks the activation of the heating system, thus reducing energy use appreciably. This approach reflects our commitment to promoting sustainable and responsible practises in line with the most recent energy efficiency legislation.

Besides to meet specific requirements or simply comply with local legislation, our mixers can be fitted with different flow restrictors ensuring the required maximum flow rate per minute.

Our mission is to encourage a conscious approach to the use of resources, ensuring maximum efficiency and comfort at the same time. We are proud to provide solutions which incorporate our vision statement for a sustainable and efficient world.
